

| Section                    | Field Name                 | Type             | Description                                                                                                 |
|----------------------------|----------------------------|------------------|-------------------------------------------------------------------------------------------------------------|
|                            | sample_id                  | string           | Unique sample IDs                                                                                           |
|                            | qc_control                 | string           | Quality control, indicating whether the sample is an actual sample, an internal control, or a pooled sample |
|                            | sex                        | string           | Sex (Female or Male)                                                                                        |
|                            | age                        | integer          | Age in years, at the time of enrollment                                                                     |
|                            | severity                   | string           | Severity category (Mild, Moderate, Severe)                                                                  |
|                            | positive_control           | string           | Positive control                                                                                            |
|                            | plant_gene_controls        | array of objects |                                                                                                             |
| plant_gene_controls        | name                       | string           | Name of the measured control                                                                                |
| plant_gene_controls        | value                      | integer          | Value of the measured control                                                                               |
|                            | housekeeping_gene_controls | array of objects |                                                                                                             |
| housekeeping_gene_controls | name                       | string           | Name of the measured control                                                                                |
| housekeeping_gene_controls | value                      | integer          | Value of the measured control                                                                               |
|                            | mirnas                     | array of objects |                                                                                                             |
| mirnas                     | name                       | string           | Name of the measured miRNA                                                                                  |
| mirnas                     | value                      | integer          | Value of the measured miRNA                                                                                 |
|                            | proteins                   | array of objects |                                                                                                             |
| proteins                   | protein_symbol             | string           | Symbol of the measured protein                                                                              |
| proteins                   | uni_prot_id                | string           | UniprotID                                                                                                   |
| proteins                   | olink_id                   | string           | OlinkID                                                                                                     |
| proteins                   | value                      | float            | Value of the measured protein                                                                               |
