

Section	Field Name	Type	Description
	subject_id	string	Participant id
	age	integer	Age of the participant (unit = years)
	sex	string	Sex of the participant (one of 'Female' or 'Male')
	ethnicity	string	Ethnicity of the participant (one of 'Hispanic or Latino' or 'Not Hispanic or Latino')
	race	string	Race of the participant (one of 'American Indian or Alaska Native', 'Asian', 'Black or African American', 'Multiple', 'Unknown', or 'White')
	height	integer	Height of the participant (unit = cm)
	weight	number	Weight of the participant (unit = kg)
	body_mass_index	number	Body mass index of the participant (unit = kg/m2)
	periods	array of objects	
periods	period	string	Study period when data was collected. One of 1, 2, or 3.
periods	days	array of objects	
days	day	string	Nominal study day (unit = day).
days	times	array of objects	
times	time	string	Nominal sampling time (unit = hour).
times	analytes	array of objects	
analytes	analyte	string	Measured analyte. One of Oxycodone, Oxymorphone, Paroxetine, Escitalopram, Desmethylescitalopram, and Didemethylescitalopram.
analytes	drug	string	Administered co-drug with oxycodone. One of "Placebo", "Escitalopram" and "Paroxetine".
analytes	concentration	number	Reported concentration with values below lower limit of quantification set to zero. (unit = ng/mL)
times	mixtures	array of objects	
mixtures	mixture	string	Type of hypercapnic gas mixture in rebreathing bag. One of hyperoxic (24% O2, 6% CO2, N2 balanced) or hypoxic (6% O2, 6% CO2, N2 balanced).
mixtures	drug	string	Administered co-drug with oxycodone. One of "Placebo", "Escitalopram" and "Paroxetine".
mixtures	mvresting	number	Resting minute ventilation (unit=L/min)
mixtures	etco2	number	Resting end-tidal carbon dioxide partial pressure (unit=mm Hg)
mixtures	spo2	number	Resting oxygen saturation (unit=%)
mixtures	ve55	number	Minute ventilation assessment at 55 mm Hg carbon dioxide. (unit=L/min)
mixtures	vas_score	number	Visual analogue score for sedation (range of 0 to 100) (unit=mm)
